No Delays.

No Surprises.

*No Better
Protection for
Your Wood.*

*T*ake charge of your schedule with Advantage Prefinishing.

Advantage Prefinishing provides a cleaner and more uniform application of your sealants. Our products are applied based on ideal manufacturer recommendations to meet or exceed warranty requirements. The process includes 6-sided encapsulation of the wood to provide a comprehensive barrier to moisture. This barrier will

protect the beauty and integrity of the wood for years to come.

With Advantage Prefinishing, not only do you get a better finish, you eliminate weather related delays and unpleasant messes and odors.

Whether you are installing exterior siding or interior paneling, you'll spend a fraction of the time to complete the project. Your time and your investment are precious, care for them wisely with Advantage Prefinishing and Sealants.
