SUPERIOR FINISH * LASTING VALUE

ADVANTAGE

PREFINISHING & SEALANTS

Prefinishing has its Advantages...

Prefinishing offers your customers flexibility and consistency and keeps installation on schedule! We use top of the line paints and stains and offer single coat to multiple coat finishes!

Extends the Building Season: Work earlier in Spring and well into Winter!

No Rain Delays: No weather related delays - Keeps your customers on schedule!

No Subcontractors: Eliminate the need for a painting/staining subcontractor, keeps your jobs on schedule and costs low.

Care in Process: Finishes are applied in ideal conditions and wood substrates are acclimated and prepared for maximum adhesion providing the best possible finish available.

Increased Dimensional Stability and Reduced Moisture

Related Damage: We prime all edges leaving a solid and consistent barrier to moisture.

Superior Finish: Our factory finishing leaves your customers with a superior, uniform finish.

Eliminates the Inconvenience of Job Site Smell and Clean-up

Prefinishing is Ideal for:

**Wood Sidings ■ Wood Patterns ■ Wood Trim & Fascia
Decking & Accessories ■ Clear Coats**

Choose from five stock spray stain colors and a variety of warranted exterior paint and stain options.
