

# MATCHLOCK

MATCHLOCK Premium End-Matched Paneling is a solid wood interior paneling with 4-sided tongue & groove edges that 'Match & Lock' together enhancing the natural beauty of the wood with the detail of custom craftsmanship. More than just good looks, MATCHLOCK adds supplemental structural strength and dimensional stability with its interlocking ends.

Available in:

Ash	Aspen	Cedar
Birch	Oak	Signature Pine

Strength and Beauty  
made Simple.

Application Featured in Cedar

MATCHLOCK Premium End Matched Paneling is manufactured at our North Country Manufacturing Facility in Northern Minnesota. What makes our process unique is our "hands on" approach. Each piece of MATCHLOCK End Match WP4 Paneling is evaluated and graded three times, by hand, throughout the manufacturing process to ensure the ultimate in quality and uniform appearance.

*"Quality from start to finish"*

Preserve the natural beauty and strength with Advantage factory applied stains and sealants. The Advantage prefinishing process features a clear UV finish providing excellence in durability, stain & moisture resistance and finish clarity and leaves the wood silky smooth! Best of all, you eliminate the mess and smell associated with the finishing process. Great selection of Advantage Plus factory pre-stained options available, featured in Whitewash, Cider, Fruitwood & Traditional Cherry.

Manufactured & Distributed by:
